Step 2: From the WebAdvisor Home Page, Select New to WebAdvisor.
Step 3: You will be redirected to a page that lists the next few steps. Review the information then click OK to continue.

Step 4: On this page enter your last name and either your Social Security Number or Student ID Number. Then click Submit.
Step 5: Take note of the User ID provided on this page. To ensure your temporary password will be received, make sure your personal email address is spelled correctly and that you are able to sign in to the account listed.

- If the email address needs to be corrected, or updated, please contact the Admissions & Records office at 913-288-7600 to speak with a technician for the most up-to-date procedures.

When you have verified that your email is correct and have selected it from the drop down box, then select Submit.

Step 6: Retrieve the temporary password from your personal email. Go directly to your email inbox (ex: mail.yahoo.com, gmail.com, etc.) An email with the subject “WebAdvisor Response” will be sent within a few minutes. The email may go into your Spam folder, based on your settings.

Open the email. If you have more than one, use the most recently received email. Please note: you must sign in with the temporary password within 24 hours of receiving the email.

Copy the password by double-clicking the password text, right click, and select Copy (or Ctrl+C).
Step 7: Once your temporary password has been copied, go back to the WebAdvisor home screen. Refresh the WebAdvisor page. Select Log In after the page is refreshed.

Type in the User ID provided earlier. Then paste the temporary password into the password field by hovering the mouse over the password field, right click, then select paste (or Ctrl+V). Then select Submit.

Paste the temporary password into the Old Password field. Create a new password, using the New Password field, that is 6-9 characters in length and includes at least one number and one letter. Once you’ve created your new password, type it again in the Confirm Password field. Utilize the My Password Hint field by giving yourself a hint to help you remember what your password is. You can use anything except the password itself and auxiliary characters like “,”/@#$%^&*. Example: Password= pancake4   Hint= stacked breakfast four
Select Submit.

You will be redirected to the WebAdvisor home page. To verify that you have successfully signed in, look for “Welcome Your Name” on the left hand side of the page. If your name appears there, you have successfully set your log in information for KCKCC.
