Division of Arts, Communications and Humanities

Dean: Jerry Pope
Contact: jpope@kckcc.edu

Virtually every student at Kansas City Kansas Community College takes courses in the division of Arts, Humanities, and Social Sciences as we provide instruction and experience in skills that are critical to every educational and career path. There are opportunities for those who wish to create through the performing and visual arts; to improve communication in spoken, written, digital media; and to examine the range of human thought, development, and behavior.

Many of the best college experiences occur outside the classroom. Our division houses a long record of developing insight and understanding as evidenced by our students' and faculty's national titles, recognitions, valuable internships, and other enhancements. Financial incentives are available to assist you in achieving your goals.

Associate in Applied Science Degrees (AAS)	**Associate in General Studies (AGS)**
Audio Engineering	Journalism
Digital Imaging Design	Music Technology
	Studio Arts
	Theatre Technology
Associate in Arts Degrees (AA)	**Placement Notes**
History	English for Speakers of Other Languages
Journalism	Foreign Language
Music	
Philosophy	
Studio Arts	
Theatre	

Since the transferability of courses will vary depending on the specific four-year institution, it is strongly recommended that if students are intending to transfer to a four-year institution, they must consult with the transfer institution and with their respective KCKCC advisor before enrolling in order to determine the transferability of their courses. It is the student's responsibility to follow the transfer requirements established by his/her transfer institution.

Audio Engineering   *Associate in Applied Science*

Program/CIP Code: AENG.AAS/10.0203
Credits Required: 62
Division: Arts, Communications and Humanities
Contact: audioengineering@kckcc.edu

The goal of the Audio Engineering Program is to prepare our students for an entry level position in the varied fields of the audio industry and/or to enable them to transfer to a 4-year degree in a related field. We emphasize hands-on experiential training, while assuring students also understand audio theory and traditional musical concepts. Our curriculum produces a versatile professional, prepared to work in a variety of audio industry fields; to communicate with musicians in a recording studio or live sound environment; and to work in a non-musical audio field, such as broadcasting or corporate sound.

The Audio Engineering facilities at KCKCC include three state-of-the-art recording/mixing studios, a computer/MIDI lab, and an impressive live sound reinforcement system. Our facilities are open on evenings and weekends to allow students to work on school projects. The program faculty consists of active professionals in the recording and sound reinforcement industry.

Students frequently transfer to 4-year degree programs in related fields, and we have transfer and articulation agreements in place with several universities. Our students are employed both locally and nationally at live music venues, churches, and recording studios; with national and international touring shows; with music industry retailers; at television, radio stations, film and video production and post-production facilities; telecommunications companies; and music business and administration companies. They have also created entrepreneurial companies that address the needs of niche markets in the audio industry.

Requirements for admission to the program:
- No requirements for admission to the program.
- Contact program for program-specific advising.

Credits Required: 61
Division: Arts, Communications and Humanities
Contact: digitalimaging@kckcc.edu

Kansas City Kansas Community College's Digital Imaging Design vocational program leads to an Associate in Applied Science Degree in Digital Imaging. This degree is designed to prepare students for a career in the field of computer based graphic design. The Digital Imaging Design program is a comprehensive practical course of study which provides the up-to-date and latest technology training in the field of digital graphics.

The Digital Imaging Design program prepares individuals to apply technical knowledge and skills to the layout, design, and typographic arrangement of printed and/or electronic software; digital imaging; print preparation; page layout and design; desktop publishing; and applicable principles of graphic design for print as well as interactive media and web page design.

The Digital Imaging Design program is a vocational program using the latest technology and facilities to instruct learners in the most current methods, technology, and practices in graphic image design for print, multimedia, and the web. The graduates of this program will have an Associate in Applied Science degree which will enable them to obtain Graphic Design positions in the advertising, marketing, web, publishing, printing, and sign making industries.

History

Associate in Arts

Program/CIP Code: HIST.AA/24.0101
Credits Required: 60
Division: Arts, Communications and Humanities
Contact: hist@kckcc.edu

Requirements for admission to the program:
- No requirements for admission to the program.
- Contact program for program-specific advising.

History at Kansas City Kansas Community College introduces students to an array of peoples, time periods, and regions. Students examine a wide range of subjects from ancient and classical civilizations, to modern world. Topics, which are drawn from the entire map of human experiences include creativity, belief, conflict, Identity, innovation, ordinary life, and power. Students also learn historical literacy. They learn to evaluate evidence, examine contexts, identify changes and continuities, and to understand complexity. They encounter traditional and new approaches to historical subjects, and they are introduced to historiography.

Students who already believe that the study of the past is interesting and meaningful will be encouraged. For other students, history at the college will open up new worlds of knowledge and understanding. The American Historical Association in its Careers for Students of History Identifies seven careers in History: "classrooms', 'museums', 'editing and publishing', 'archives', 'historic preservation', 'federal, state and local history' and consultants and contractors'. The community college provides the foundation for students who intend to earn a baccalaureate degree and graduate degrees in history. Students who intend to teach in elementary and secondary schools should also satisfy requirements for certification.

Philosophy

Associate in Arts

Program/CIP Code: PHIL.AA/24.0101
Credits Required: 62
Division: Arts, Communications and Humanities
Contact: phil@kckcc.edu

Philosophy, as the love of wisdom, analyzed the most fundamental issues of the human condition, issues concerning the nature of the human person, justice, the possibility of the existence of God and human freedom, the significance of political and moral values, and, above all, the question of knowledge and truth. Philosophers from Confucius and Aristotle to John Dewey and Paulo Freire have investigated, as the axial human problem, how philosophical education is to help us in developing our own humanity. Thus philosophy enables students to examine the most crucial topics of their social and political existence, advancing their skills in logical thinking, verbal and written argumentation, and the capacity for organizing principles and ideas. If our democratic system is to endure, we must debate true and false claims, right and wrong values, and just and unjust decisions. This is the reason that philosophy, as the pursuit of knowledge, virtue, and freedom, has traditionally formed the core of a liberal arts education. For that reason, philosophy offers exceptional preparation for work in areas such as politics, law, governmental administration, writing, journalism, and education.

Music Technology   *Associate in General Studies*

Program/CIP Code: MUSC.TECH.AGS/24.0101
Credits Required: 63
Division: Arts, Communications and Humanities
Contact: music@kckcc.edu

In addition to the traditional four-semester sequence of music theory, performing ensembles, and applied (private) lessons, the Music Technology degree is designed specifically to enhance the technological skills of music students. Academic courses and practical experiences provide an introduction to the use of computers in musical and multimedia production, including web design, digital video editing, and audio recording.

The Music Technology and Audio Engineering facilities at KCKCC include three state-of-the-art recording/mixing studios, a computer/MIDI lab, and an impressive live sound reinforcement system. Our facilities are open on evenings and weekends to allow students to work on school projects. The program faculty consists of active professionals in the recording and sound reinforcement industry.

Students frequently transfer to 4-year degree programs in related fields, and we have transfer and articulation agreements in place with several universities. Our students are employed both locally and nationally at live music venues, churches, and recording studios; with music retailers; at television and radio stations; telecommunications companies; and music business and administration companies. Theatre Technology

Associate in General Studies

Program/CIP Code: THTR.TECH.AGS/24.0101
Credits Required: 60
Division: Arts, Communications and Humanities
Contact: theater@kckcc.edu

The theatre technology program develops the knowledge and skills necessary for students to embark on careers as professional stage hands, stage carpenters, and stage electricians. Emphasis in this specialized program is on production. Many hours are required in the operation on the theatre plant, and the construction of scenery for theatrical events. Students who follow the program are assured technical opportunities in lighting, sound, set construction, and/or stage management each semester during the two-year program.

A limited number of performance grants are available to qualified students. Individuals with previous experience in theatrical performance and/or technical production should apply directly to the coordinator at 913-288-7106

Requirements for admission to the program:
- No requirements for admission to the program.
- Contact program for program-specific advising.

English for Speakers of Other Languages

Division: Arts, Communications and Humanities
Contact: artsandhumanities@kckcc.edu

English for Speakers of Other Languages (ESOL) is designed for students who wish to improve their writing, reading, and speaking skills in English. ESOL classes prepare students for success in academic courses needed for an associate degree and are also appropriate for those who wish to improve their English skills for job enhancement.

Entry into ESOL classes is determined by scores on an ESOL Placement test. The office of the ESOL coordinator is located in the Science Building, Room #3415. Call 913-288-7625, 913-288-7380, or the Arts, Humanities and Social Sciences Division Administrative Assistant at 913-288-7134 for additional information.

Foreign Language

Division: Arts, Communications and Humanities
Contact: artsandhumanities@kckcc.edu

Studying a foreign language is required of most liberal arts majors and recommended in many vocational areas. As more and more businesses and industries become involved in the international marketplace, students with foreign language skills may well find themselves excelling in the changing economy.

At KCKCC, foreign language courses are infused with cultural content from the humanities and social sciences. By furnishing students with comparative perspectives on history, philosophy, society, and art, foreign language courses contribute significantly to our multicultural awareness and to higher order thinking. Ultimately, this helps hold the human community together, both globally and locally.

Foreign language courses are offered at the KCKCC main campus and the Pioneer Career Center. Our college provides academic and conversational instruction in Spanish, French, and Arabic. Furthermore, we offer vocational Spanish courses for nurses, school administrators, teachers, paraprofessionals, support staff, child care facility personnel, and law enforcement officials. Tutoring is available through the Academic Resource Center free of charge.

For students with a previous experience in Spanish (middle school and/or high school), KCKCC has a Foreign Language Placement Exam. Students with 3 or more years of study are encouraged to take this test to determine proper placement in the sequence. We also provide an opportunity to earn college credit by examination. For more information, please contact the program coordinator at 913-288-7382.
