

Kansas City Kansas
Community College™

BLUE DEVILS COMEBACK PLAN

April 15, 2021

I WELCOME TO Spring 2021 SEMESTER BLUE DEVILS!

Kansas City Kansas Community College has been working diligently to proactively plan for the health and safety of our campus community. The Blue Devil Spring 2021 Plan provides updates of what to expect this semester.

The Blue Devil Plan is guided by information collected from several organizations with expertise in the field of disease control and public health preparedness. The ensuing comprehensive plan is provided as a guide of best practices and contains requirements KCKCC is implementing to help ensure the health and well-being of our entire college community.

This plan begins January 4th, 2021 and will be in effect for the Spring 2021 semester. The plan will be amended as needed and as new information becomes available. On-going announcements and more details will be posted at the [KCKCC COVID-19](#) website.

As a reminder, Symptoms of COVID-19 include: fever, cough, shortness of breath, sore throat, headache, chills, body aches, fatigue (tiredness), nausea/vomiting/diarrhea, loss of taste or smell.

Fever

Cough

Shortness of breath

Sore throat

Headache

Chills

Body ache

Fatigue (tiredness)

Nausea/vomiting/
diarrheaNew Loss of taste
or smell

Guiding Principles as We Welcome Back the Blue Devils for Spring 2021

- ▶ Stay home if you have symptoms of illness and seek professional medical care if needed.
- ▶ Employees who seek a workplace accommodation due to having a high-risk medical condition as defined by the CDC for the COVID-19 virus should contact Human Resources for further instruction.
- ▶ [Wyandotte County Local Health Order LHO 6/27/20](#), employees, guests and students must wear a face covering over the mouth and nose.
- ▶ Face coverings will be available at the main front desk of most departments for guests that do not have a face covering.
- ▶ Employees will be provided two cloth masks and are responsible for their care and cleaning. If an employee has not yet received 2 cloth masks, please contact College Police at 913-288-7636.
- ▶ Wash or sanitize hands each time, before and after, touching face or face covering.
- ▶ Physical distancing of 6-feet, or until such time as that recommendation is changed, must be maintained by all individuals within KCKCC facilities.
 - For lab activities that indicate a need to be closer than 6-feet, the dean must approve the activities prior to them occurring.

- ▶ Appliances located in breakrooms including freezers / refrigerators, coffee pots / stations, and ice makers will now (April 15, 2021) be brought back online for normal use. Vending machines will all be restocked and also returned to normal use. However, sitting together and gathering for lunches or celebrations is still not permitted.
 - Individuals must sanitize appliances after each use with provided disinfecting wipes.
- ▶ Employee desks should be cleared and cleaned daily.
 - Custodial team members do not clean personal desks, tables or other hard surfaces within private offices; therefore, employees will be provided items to disinfect their work surfaces daily.
- ▶ Sanitation stations, including hand sanitizer, disinfectant wipes and other items will be placed throughout KCKCC facilities.
- ▶ High traffic, common and frequented areas will be disinfected nightly by means of electrostatic sanitizing equipment.
- ▶ If a positive case of COVID-19 is identified in a KCKCC facility, the appropriate cleaning protocols and contact actions will be initiated.

I KCKCC Business Operating Hours

- ▶ All KCKCC locations will follow normal hours of operation.

I Face Coverings

Employees must wear a face covering over the mouth and nose in all common areas. Following new guidance from Wyandotte County Health Department, the use of bandanas and gaiter-type face coverings are strongly discouraged. Face coverings are not required to be worn in private offices, when the employee is alone. Employees must wash or sanitize hands (sanitizer will be available at entry locations) upon entering and exiting the building and throughout the day. Not wearing a face covering over the mouth and nose, or abiding by physical distancing requirements will result in you being asked to leave the facility.

In compliance with the [Wyandotte County Local Health Order LHO 6/27/20](#), and expectations of KCKCC, all employees, customers, visitors, members, or members of the public to wear a mask or other face covering when:

- ▶ Employees are working in any space visited by customers or members of the public, regardless of whether anyone from the public is present at the time;
- ▶ Employees are working in any space where food is prepared or packaged for sale or distribution to others;
- ▶ Employees are working in or walking through common areas, such as hallways, stairways, elevators, and parking facilities;

- ▶ Customers, members, visitors, or members of the public are in a facility managed by the business or organization; or
- ▶ Employees are in any room or enclosed area where other people are present.
- ▶ Masks must be worn while outdoors in public spaces and unable to maintain a 6-foot distance between individuals (not including individuals who reside together) with only infrequent or incidental moments of closer proximity.

It is important to wear a mask or cloth face covering appropriately

- ▶ This means that it must cover both your mouth and nose.
- ▶ Do your best not to touch your mask or your face. If you need to adjust your mask, clean your hands with soap and water or hand sanitizer before and after touching your mask or face covering.
- ▶ Cloth face coverings that you can make with items around your home are effective at helping reduce the spread of COVID-19. You do not need a surgical mask or other medical-grade mask, and it is best to reserve those supplies for healthcare workers.
- ▶ The primary purpose of mask is to protect others in case you may be carrying the virus, even if you don't have symptoms. If we all wear masks, we are all helping protect one another, and especially protect those most vulnerable to serious illness.

Cloth Face Coverings: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-gettingsick/diy-cloth-face-coverings.html>

Using Personal Protective Equipment: <https://www.cdc.gov/coronavirus/2019-ncov/hcp/using-ppe.html>

I Employee Guidelines for Entering KCKCC

- ▶ Employees who have symptoms of acute respiratory illness (new cough, shortness of breath or difficulty breathing) are recommended to notify their supervisor, notify HR, and stay home.

Employees with at least two of the following new symptoms will be asked to self-isolate:

- a. Fever or chills
- b. Fatigue
- c. Muscle or body aches
- d. Headache
- e. New loss of taste or smell
- f. Sore throat
- g. Congestion or runny nose

- h. Nausea or vomiting
- i. Diarrhea

They can return to work/school: 10 days from the onset of symptoms OR they are fever free for 72 hours, without medication that reduces fever AND other **symptoms** have improved. Whichever is longer. Re-testing is not required to return to work/class.

I Isolation of a Person Under Investigation

Updated guidance from KDHE effective Dec. 14, 2020: <https://www.coronavirus.kdheks.gov/DocumentCenter/View/1380/Guidance-for-Reopening-Colleges-and-Universities-PDF---8-24-2021?bidId=>

A Person Under Investigation (PUI) is someone who is suspected of having COVID-19 disease. A person who is being tested for COVID-19 is required to be in isolation until test results are received. Possible outcomes of the test result include:

- ▶ If the test result is positive, then the person becomes a case or
- ▶ If the test result is negative and the person has a known exposure, then the person must finish their quarantine period, or
- ▶ If the test result is negative and there was no known exposure, then the person is released from isolation.

I Employees – Close Contact

HR and the College Nurse will make recommendations to individuals identified as close contacts based on the current Wyandotte County Guidelines:

Close contact is “anyone who was confirmed to be within 6-feet of an infected individual (a case) for at least 10 minutes (with or without a face covering) or had contact with bodily secretions (for example, being sneezed or coughed on) from a case, while the case is infectious.” Anyone who was confirmed as a close contact should be considered exposed to COVID-19 and should self-isolate for 14 days after exposure AND get tested for COVID-19, 7-9 days after they were exposed.

No action is required for individuals who were NOT within 6-feet of an infected person for at least 10 minutes. Individuals can get tested for COVID-19 if they choose to do so, but it is not required.

Employees that have received a COVID-19 vaccine and are fully vaccinated will not be required to quarantine if they were a close contact to someone that tested positive for COVID-19. The employee will need to notify the Human Resources Department if they begin to develop symptoms related to COVID-19.

People are considered fully vaccinated:

2 weeks after their second dose in a 2-dose series, like the Pfizer or Moderna vaccines, or 2 weeks after a single-dose vaccine, like Johnson & Johnson's Janssen vaccine

If it has been less than 2 weeks since your shot, or if you still need to get your second dose, you are NOT fully protected.

<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/fully-vaccinated.html>

I Employees – COVID-19 Positive with Symptoms

In compliance with COVID-19 isolation guidance from the Unified Government Public Health Department, the infected individual must self-isolate. They can return to work/school:

10 days from the onset of symptoms OR they are fever free for 72 hours, without medication that reduces fever AND other symptoms have improved. Whichever is longer. Re-testing is not required to return to work/class.

I Employees – COVID-19 Positive, but No Symptoms (asymptomatic)

- ▶ Employees who have tested positive, but are not exhibiting symptoms must self-isolate. In compliance with COVID-19 isolation guidance from the Unified Government Public Health Department, the infected individual must self-isolate.

If the case is asymptomatic, then they should stay home for 10 days since the day their sample was taken. If they develop symptoms during this 10-day period, then they would begin a new isolation period as described above for symptomatic cases.

Employees – COVID-19 Symptoms (mild, non-life threatening symptoms) with a Negative Test

Employees that are exhibiting symptoms should stay home and contact their supervisor and Human Resources. Employees with mild symptoms (non-life threatening), a negative COVID-19 test result, and no known exposure may return to work 72 hours after being symptom free. Employees that do not have a negative test result, have 2 or more symptoms and no known exposure will need to self-isolate for 10 days past symptom onset or 72 hours, whichever is longest.

Employee use of Leave

Employees may be required to use their leave related to COVID-19 isolations. Special circumstances may exist which require additional consideration. These situations will be reviewed on a case-by-case basis. In general, the following guidelines will apply:

NON-WORK-RELATED ISOLATION

Employees required to isolate due to having COVID-19 symptoms can choose to obtain a COVID-19 test and will not be required to use their leave for up to the first four days of the isolation. Employees who test positive in this category will be required to use their leave for the remaining isolation time.

Employees with mild symptoms, a negative COVID-19 test result, and no known exposure may return to work 72 hours after being symptom free

- ▶ Employees who are not able to work from home and choose not to get tested will be required to use their accrued leave during their entire absence from work.
- ▶ Employees who can work from home but have multiple instances of isolation may also be required to use their leave.
- ▶ If a staff employee has exhausted their accrued leave and have a COVID-19 related isolation, they may be eligible to receive leave hours from the COVID-19 shared leave bank.

WORK RELATED ISOLATION

Employees who must isolate due to a COVID-19 exposure due to a KCKCC related incident, will not be required to use their leave.

Employees – notified by student of positive COVID-19 test result, or experiencing symptoms

If a college employee receives notification from a student in their class/program that the student received a confirmed positive COVID-19 test, or are experiencing symptoms, the college employee should contact the KCKCC Student Health Services Office at nurse@kckcc.edu or 913-288-7683 and report the student's name and contact information.

Students - COVID-19 Positive or Close Contact

- ▶ Students who tested COVID-19 positive, have COVID-19 symptoms, or were in close contact with a COVID-19 patient, should NOT come to campus and should contact the KCKCC Student Health Services Office at nurse@kckcc.edu or 913-288-7683.
 - a. In compliance with COVID-19 isolation guidance from the Unified Government Public Health Department, sick or symptomatic individual's must self-isolate. Individuals may return to work/school:

10 days from the onset of symptoms OR they are fever free for 72 hours, without medication that reduces fever AND other symptoms have improved. Whichever is longer. The student should monitor [symptoms](#) and call a doctor if concerned about the symptoms. Re-testing is not required to return to class.

Students - COVID-19 Positive, but No Symptoms

Students who tested positive, but continue to have no symptoms, should NOT come to campus and should contact the KCKCC Student Health Services Office at nurse@kckcc.edu or 913-288-7683.

Please refer to the KCKCC Spring 2021 student come back plan for additional student related details.

Guest Guidelines for Entering KCKCC Locations

Scheduling an appointment and taking advantage of remote/online meetings is highly recommended. However, we will accept walk-ins based on availability while maintaining physical distancing protocols and wearing of face covering over mouth and nose. Be aware that scheduled appointments have priority over walk-ins.

Guests who have symptoms of acute respiratory illness (new cough, shortness of breath or difficulty breathing), or exhibiting other signs of COVID-19 must not visit any KCKCC location.

Guests who have been exposed to COVID-19 within 14 days of their intended visit to KCKCC must reschedule.

Guests must wear a face covering over the mouth and nose. Guests must also sanitize hands (sanitizer will be available at all entry locations) upon entering and exiting the building. Not wearing a face covering over mouth and nose, or not abiding by physical distancing requirements will result in you being asked to leave the facility.

Hand Washing: <https://www.cdc.gov/handwashing/hand-sanitizer-use.html>

Cloth Face Coverings: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html>

Using Personal Protective Equipment: <https://www.cdc.gov/coronavirus/2019-ncov/hcp/using-ppe.html>

I Physical Distancing

While on campus, all employees, students, and guests must maintain 6-foot physical distance from others as much as possible. Workspaces, including student classroom spaces and shared employee offices, should be adjusted to maintain 6-feet of distance. Plexiglass barriers will remain in place for front-line staff where the primary function is greeting or routing students and guests.

Physical Distancing: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/social-distancing.html>

I Meeting Rooms

Whenever possible, in-person meetings should be replaced with virtual meetings. The standard room capacity for meeting rooms and personal offices will be reduced to ensure at least 6-feet of space between all participants.

When possible, tables and chairs will be removed to support proper physical distancing. Cleaning supplies will be available to disinfect work surfaces or frequently touched areas. Meeting times should be held to a minimum to accomplish the meeting objectives. Employees should not linger and socialize after essential meetings.

There should be no serving of food at any meetings or gatherings. Meeting attendees should clean and disinfect all table surfaces, chairs, and computer equipment at the conclusion of each

meeting. Cleaning supplies will be available in all conference rooms or can be obtained from the office area.

Elevators

KCKCC's custodial team will regularly clean and sanitize frequently touched surfaces such as buttons outside and inside elevator cars. When considering the use of an elevator, the cautions below should be observed:

- ▶ Avoid use if possible
- ▶ Maintain physical distancing in elevators as much as possible
- ▶ Avoid overcrowding
- ▶ Take the stairs or wait for the next elevator
- ▶ Limit the number of people getting into the elevator at the same time
- ▶ Consider only riding the elevator with own party or alone
- ▶ When possible, use your elbow, or another object, like a pencil, to push the elevator buttons
- ▶ Wash your hands or use hand sanitizer after riding an elevator
- ▶ The Centers for Disease Control & Prevention (CDC) recommends covering your mouth and nose with a cloth face covering when in public. To maintain safety, consider an elevator a public space and cover your mouth and nose when riding
- ▶ Follow all general hygiene tips, such as coughing into your elbows and not your hands
- ▶ Avoid touching your face after pushing the button

Classes and Labs

A tremendous amount of planning has gone into how classes will be offered to help ensure students' continued success. Given the current environment that the COVID-19 pandemic has created, KCKCC will be offering classes in four ways for the coming semester:

- ▶ **Face-to-Face:** Approximately 30 percent of general education courses this Spring will be offered face-to-face at one of KCKCC's physical locations. The college is taking extra precautions to help ensure the safety of both students and employees, including reducing face-to-face class sizes and replacing some furniture to maximize physical distancing. At a minimum, KCKCC will follow all current county guidelines, and face masks may be required. Multiple sanitation stations have been distributed across all facilities, and class times have been adjusted to reduce high student traffic in the hallways between classes.
- ▶ **Online:** A significant number of courses will be offered in a traditional online format. Traditional online courses are delivered online, but do not have scheduled class meeting times. These courses will be listed as "online" in the class schedule.

- ▶ Virtual: Other courses will continue to meet on a set schedule, but will do so online through Zoom or another video technology, as shown in WebAdvisor. For example, you might have a virtual class that will meet through Zoom from 10:00 am–10:50 am. Monday, Wednesday and Friday. The exact meeting days and times will be shown on WebAdvisor and on your class schedule. Virtual courses will be listed as “virtual” in the class schedule.
- ▶ Blended: Classes that are delivered in a blended format will meet both face-to-face and online. These will be designated as “blended” in the class schedule.

I Facility Rentals and Special Events

KCKCC is putting health and safety at the forefront when looking at hosting events that traditionally bring large groups of people into confined spaces. As such, every event will be reviewed and considered on an individual basis relevant to the number of anticipated people, the venue and the status of COVID-19 at the time.

I Travel

All essential travel regardless of transportation mode must be pre-approved by the employee’s respective Cabinet member. Employees should not carpool with other employees, or those outside of their immediate household in college or personal vehicles. All college owned vehicles will be electrostatically disinfected after each use.

Travel guidelines: [Kansas Department of Health and Environment](#) (KDHE)

I Facilities Cleaning Practices

Enhanced cleanings of all common areas and classrooms will be performed twice daily, including regular disinfecting of frequently touched surfaces (door handles, hard surfaces, tables, chairs, etc.). Electrostatic disinfecting of all common and classroom areas will also occur every night, Monday - Friday. Additional cleaning supplies will be available for students and instructors to clean learning spaces after use. Hard surfaces such as desktops, tables, etc. in private offices are not cleaned by facilities services. Employees should clean and disinfect tabletops, desktops, cabinets, etc. within their own office space. Cleaning supplies will be made available in each office area.

When there is adequate negative pressure to do so, the main entry doors to multi-stall restrooms will be left open. Where restroom doors cannot be kept open, employees should use a paper towel to open the door after drying hands and place the towel in a trash receptacle that will be next to

the door. Restrooms have hand sanitizer dispensers next to the door. Employees are encouraged to sanitize hands after opening the restroom door as an option to using paper towels. Hand air dryers will be taped off and should not be used.

All restrooms will be cleaned and disinfected a minimum of twice daily. High touch surfaces will receive additional sanitizing throughout the day.

Drinking fountains at all locations will be taped off and disabled. The water bottle filling capability at these stations will remain available. Individuals are encouraged to fill personal water bottles and/or bring personal beverage.

HVAC systems in college offices, rooms and spaces will be operated to best provide available ventilation for all areas. Where possible, office doors should remain open to provide additional ventilation as well as reduce the frequency of touches on door handles. Auxiliary fans have been removed from classrooms and common areas to prevent air from being blown directly on individuals. Employees should not use fans/heaters of any kind within offices or workspaces. How to clean and disinfect: <https://www.cdc.gov/coronavirus/2019-ncov/community/disinfecting-building-facility.html>

I Testing Sites

- ▶ [Wyandotte County Symptoms and Testing Information](#). COVID-19 can be confirmed by lab testing, which is available at multiple locations in Wyandotte County. Testing is available for free to people who live or work in Wyandotte County at multiple community locations, including the UGPHD and at the old K-Mart building on State Ave.
