The Office of Institutional Effectiveness administers a series of recurring institutional surveys; a list is provided below. Information provided includes responsible unit(s), the target population for the survey, and the anticipated field dates. For more information about the surveys and to view results from past administrations, please consult us. The month column with a star (*) denotes the actual administration of the survey, preparation and post-analysis takes approximately 2-3 weeks around the survey administration.

The information provided below could change to accommodate the institutional needs and priorities. Those planning on administering a campus wide survey are urged to consult the IE office for additional information and scheduling. In addition to these, we assist with division specific (for ex. Nursing or Admissions) surveys, course evaluations, pre-post tests and so on.

Survey History	Recurring Surveys	Mode of Administration	Responsible Unit	Target Population	Survey Cycle	July	Aug	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun
