COURSE DESCRIPTION:
An internship in an audio related field provides an opportunity for focused in-depth learning and practical experience of the professional audio industry to advanced students. The student is responsible for organizing the internship opportunity, which must be approved by the KCKCC's Audio Engineering Program Coordinator prior to enrollment in the class. The student must complete a minimum of 48 documented hours of internship. In addition to further developing technical and production student competencies this opportunity also provides for practical application of theories, techniques, and concepts discussed throughout the program. Students should further develop a sense of professionalism, reasoning and decision-making skills, resourcefulness, and independence. Students may also establish contacts within the industry that may lead to entry-level employment.
