

COURSE SYLLABUS

LAST REVIEW	Fall 2022
COURSE TITLE	Artificial Nails
COURSE NUMBER	NAIL 0110
DIVISION	Career and Technical Education
DEPARTMENT	NAIL
CIP CODE	12.0410
CREDIT HOURS	5
CONTACT HOURS/WEEK	Class: Lab: 10
PREREQUISITES	NAIL-0101 Scientific Concepts and NAIL-0105 Manicuring Skills

COURSE PLACEMENT Students must meet the correct placement measure for this course. Information may be found at: <https://www.kckcc.edu/admissions/information/mandatory-evaluation-placement.html>

COURSE DESCRIPTION

This course will provide the student with the abilities and skills required by every successful nail technician. This course offers sound lessons in exceptional client service in addition to hands-on step-by-step procedures that are essential for any nail technician looking to perform with confidence and capability.

PROGRAM LEARNING OUTCOMES

1. Demonstrate safety and sanitation procedures required for professional license in the cosmetology industry
2. Utilize chemicals and implements to perform nail services including analysis and application.
3. demonstrate customer service skills
4. Perform a variety of nail services in compliance with the appropriate state requirements.

TEXTBOOKS

METHOD OF INSTRUCTION

A variety of instructional methods may be used depending on content area. These include but are not limited to: lecture, multimedia, cooperative/collaborative learning, labs and demonstrations, projects and presentations, speeches, debates, panels, conferencing, performances, and learning experiences outside the classroom. Methodology will be selected to best meet student needs.

COURSE OUTLINE

- I. Client Care
 - A. Before the service
 1. Greeting
 2. Ask, analyze and access

- 3. Agreement
 - B. During the service
 - C. After the service
- II. Artificial Nail Services
 - A. Fundamentals of artificial nails
 - B. Artificial nail systems
 - C. Artificial nail procedures
- III. Specialty Nail Services
 - A. Add-on services
 - B. Nail art
 - C. Equipment

COURSE LEARNING OUTCOMES AND COMPETENCIES

Upon successful completion of this course, the student will:

- A. Describe the importance of the greeting phase, the consultation phase and the agreement phase of pre- service.
 - 1. Describe and demonstrate an appropriate client greeting.
 - 2. Describe, create, and prepare a client consultation form including medical history.
 - 3. Describe the importance of the agreement phase.
 - 4. Demonstrate the greeting phase of the pre-service.
 - 5. Demonstrate the consultation phase of the pre-service.
 - 6. Demonstrate the agreement phase of the pre-service.
- B. Describe and identify the importance of the delivery phase and completion phase of service.
 - 7. Identify and describe health conditions that would affect the service.
 - 8. Identify and describe health conditions nail technicians should refer to a doctor.
 - 9. Describe and create a client release agreement.
 - 10. Describe, create, and prepare a client service record.
 - 11. Describe, create, and prepare a home care regimen and client prescription.
 - 12. Explain the importance of pre-booking.
 - 13. Explain the importance of customer referrals.
 - 14. Explain the importance of customer follow-up.
- C. Identify the main purpose of a proper artificial nail preparation.
 - 15. Identify the necessary products, implements, supplies and equipment for nail preparation.
 - 16. Define the anagram P.R.E.P.
 - 17. Explain the myths associated with artificial nails that are the direct result of improper nail preparation.
 - 18. Identify a properly prepped nail.
 - 19. Identify an improperly prepped nail.
- D. Describe the structure of a nail tip and how to properly fit it.
 - 20. Identify the composition, structural features and basic styles of nail tips.

21. Define C-curve, contact area and stop point of nail tips.
 22. Describe and demonstrate the steps for fitting a nail tip.
 23. Identify and describe the different types of glue used for nail tips.
- E. Explain the importance of a well-balanced nail.
24. Define balanced architecture of an artificial nail enhancement.
 25. Identify zone 1 of an artificial nail enhancement.
 26. Identify zone 2 of an artificial nail enhancement.
 27. Identify zone 3 of an artificial nail enhancement.
- F. State the ways an artificial nail can be finished.
28. Identify and describe the finishing techniques available for artificial nails.
 29. Describe the advantages and disadvantages of each finishing technique.
 30. List the products and implements necessary for finishing artificial nails.
 31. List the proper file grits to obtain the desired finish.
- G. Describe the purpose, types, and procedures for the application of nail wraps, acrylic nails and gel nails.
32. Describe the purpose, types, and procedures for the application of nail wraps.
 33. Describe the purpose, types, and procedures for the application of acrylic nails.
 34. Explain the importance of proper mix ratio for liquid and powder acrylic nails.
 35. Explain the difference between, traditional, fast set, odor free and advanced liquid, and powder acrylics.
 36. Describe the purpose and procedures for application of gel nails.
- H. Demonstrate the procedures for artificial nail preparation, nail tip application, balancing and finishing.
37. Demonstrate the procedures for artificial nail preparation (P.R.E.P.).
 38. Demonstrate the procedures for nail tip application.
 39. Demonstrate the proper way to blend a tip.
 40. Demonstrate the procedures for balancing and finishing.
- I. Demonstrate the application and maintenance procedures for nail wrap, acrylic nail and gel nail systems.
41. Describe and demonstrate the steps for application of nail wraps.
 42. Describe and demonstrate the steps for maintenance of nail wraps.
 43. Describe and demonstrate the steps for removal of nail wraps.
 44. Describe and demonstrate the steps for application of acrylic nail enhancements.
 45. Describe and demonstrate the steps for maintenance of acrylic nail enhancements.
 46. Describe and demonstrate the steps for removal of acrylic nail enhancements.
 47. Describe and demonstrate the steps for application of gel nails.
 48. Describe and demonstrate the steps for maintenance of gel nails.
 49. Describe and demonstrate the steps for safe removal of gel nails.

ASSESSMENT OF COURSE LEARNING OUTCOMES AND COMPETENCIES

Student progress is evaluated through both formative and summative assessment methods. Specific details may be found in the instructor's course information document.
