A bachelor's degree in Exercise Science prepares students for careers in sport and fitness related settings outside the public schools. It does NOT prepare students to qualify for teacher certification. Career fields include coaching, strength & conditioning, cardiac or pulmonary rehabilitation, or physical therapy school.

The cumulative GPA must be at least 2.75 and a minimum of 30 course hours are required for admission to the School of Education. Admission to Exercise Science is selective so having the minimum cumulative and core GPA's does not guarantee admission.

**IMPORTANT NOTE:** Beginning Fall 2013 transfer students will be admitted to KU's new *Core Curriculum* automatically. There will be a short period where transfer students can *opt-out* and participate in the traditional, *Non-KU Core Curriculum* instead. Only students who are admitted for and begin classes in the Summer 2015 term or prior are eligible to opt-out of the KU Core. Students must speak with an academic advisor to discuss options and determine whether opting out of the Core is an appropriate decision. For more information about KU's Core Curriculum please visit <http://kucore.ku.edu/>.

**Before taking any core courses refer to the back of this sheet for the courses that will be required for the degree**
