

**Articulation Agreement between
Hutchinson Community College
Health Information Technology Program
and**

Kansas City Kansas Community College

November 1, 2010

Based upon the mutual interest for the continued growth of students pursuing health information technology/management courses and in an effort to provide a continuing articulated program that builds on past learning experience and eliminates unnecessary duplication of instruction, we mutually subscribe to the following:

1. **Kansas City Kansas Community College** students who have completed selected general education courses with a minimum grade of a C in each course and an overall grade point average of 2.0 on a 4.0 scale (3.0 on a 5.0 scale) and have met the required proficiency levels attached to this articulation agreement will be granted transfer credits in the Health Information Technology Program.
2. Work-based and/or challenge exams will be provided for students following the common practices at Hutchinson Community College.
3. Guidance and support for health information technology will begin at **Kansas City Kansas Community College** and will continue at Hutchinson Community College through individual advising sessions.
4. Hutchinson Community College will waive any assessment testing for students transferring in an English Composition and/or Math course and has earned a grade of at C in these courses.
5. **Kansas City Kansas Community College** is responsible for completing an official transcript for any students transferring into the Health Information Technology Program and providing the transcript to Hutchinson Community College at the student's request.
6. The student is responsible for completing the Health Information Technology Program Application and requesting official transcripts for the Hutchinson Community College Records Office.
7. Upon receipt of application and transcripts the student will be considered for admission into the Health Information Technology Program.
8. All transcripts will be evaluated by the Hutchinson Community College Records Office and the Health Information Technology Program.
