HUMAN RESOURCES

APRIL 2019

Department Updates

Performance Evaluations

The Human Resources Department has updated the evaluation process and forms. The assessment instrument for evaluating an employee's performance now focuses on critical competencies. It also has been designed to align individual employee goals to KCKCC's strategic initiatives. This change will allow us to better assess employee and organizational performance. As a result of this update, Human Resources is offering several training sessions throughout April and May to assist supervisors and employees with the new process and forms.

Career Opening Webpage

The Human Resources Department received feedback regarding opportunities for improvement to make it easier to search for career openings on our webpage. We updated the job openings webpage to include a navigation and search feature in an effort to make it easier for potential applicants to easily navigate through the career openings. The next phase of updating the job openings webpage will be to incorporate graphics/pictures and place each position in a specific category such as faculty, staff, part-time, etc. Below is a screenshot of the updated website.
